Myagdi, Nepal | +977 9862440344 | sb.mail.np@gmail.com | <https://www.imsbnepal.com/> | <https://github.com/imsbnepal> | <https://www.linkedin.com/in/imsbnepal>

SUMMARY

Java Backend Developer with 4+ years of experience designing, developing, and deploying scalable web applications using Java, Spring Boot, PostgreSQL, and cloud technologies. Experienced in building secure REST APIs, implementing authentication and authorization systems, optimizing database performance, and deploying containerized applications using Docker and Linux environments.

Contributed to 7+ production projects and developed more than 100 APIs supporting enterprise applications. Strong background in backend architecture, microservices, PostgreSQL optimization, JWT authentication, CI/CD automation, and cloud deployment.

EDUCATION

Myagdi Multiple Campus

Bachelor's Degree, Tribhuvan University (TU)

Graduation: 2026

EXPERIENCE

Backend Developer

June 2022 – Present

SHRISTI Universe

Key Responsibilities

- Design and develop scalable backend systems using Java and Spring Boot.
- Build and maintain secure RESTful APIs for web and mobile applications.
- Implement JWT-based authentication and authorization mechanisms.
- Optimize PostgreSQL database performance and query execution.
- Develop microservice-based applications for business solutions.
- Deploy and manage Dockerized applications on Linux servers.
- Configure Nginx and CI/CD pipelines using GitHub Actions, GitLab.
- Collaborate with cross-functional teams in an agile development environment.
- Developed and maintained 100+ REST APIs.
- Successfully delivered 7+ production projects.
- Contributed to applications serving 10,000+ users.
- Improved backend performance through database optimization and efficient API design.
- Participated in a development team of 15+ professionals delivering enterprise-grade solutions.

PROJECTS

Nepali Romanizer | Open-source Java library for Nepali ↔ Roman transliteration with offline processing and caching support.

- Technologies: Java, Maven, Caffeine Cache

Family Tree System | Enterprise genealogy platform with relationship mapping, ancestry tracking, and family hierarchy visualization.

- Technologies: Spring Boot, PostgreSQL, REST API

Quiz Management System | Online examination and quiz platform featuring scoring, user management, and result tracking.

- Technologies: Spring Boot, PostgreSQL, React

Rent Management System | Property and tenant management platform with rent tracking and payment management features.

- Technologies: Spring Boot, PostgreSQL, Next.js

Personal Portfolio Website | Professional portfolio showcasing projects, technical expertise, and development experience.

- Technologies: Next.js, Tailwind CSS, Cloudflare

TECHNICAL SKILLS

Java

Spring Boot

Spring Security

Hibernate / JPA

REST APIs

JWT Authentication

Microservices Architecture

PostgreSQL

Database Design

Query Optimization

Performance Tuning

Docker

AWS

Cloudflare

GitHub Actions

Linux Server Administration

Nginx

Git

GitHub

GitLab

Maven

Redis

Postman

React.js

Next.js

TypeScript

Tailwind CSS

LANGUAGES

- Nepali (Native) - English (Professional Working Proficiency)

CAREER PREFERENCES

Target Role: Java Backend Developer

Core Expertise: - Spring Boot - PostgreSQL - REST APIs - Spring Security - Docker - Microservices

Expected Salary: - Minimum: \$1,500–2,500/month - Preferred: \$2,500–4,000/month

Work Preference: - Remote Opportunities - International Companies - Open to Relocation
